PRECISION SAUNA INSTALLATION

Installation, Refined.

With Harvia and Thermasol, installation is not just about setup — it's about ensuring each sauna system delivers the experience it was designed for, consistently and without compromise.

HARVIA Sauna & Spa OFFICIAL PARTNER

THERMASOL® Sauna & Steam

WHAT WE DO

A Clear, Controlled Process

Plan the Setup

For a smooth installation, we recommend confirming that layout, electrical, ventilation, and system requirements are in place beforehand. Our team is here to guide you and answer questions along the way.

Install to Spec

Certified technicians install each component to manufacturer standards. No shortcuts. No assumptions.

Calibrate & Test

We fine-tune temperature, controls, and safety systems so performance is consistent and reliable from day one.

Finish the Space

We leave the environment clean, complete, and ready to be used as intended.

CLEAR STARTING POINTS

Tailored to the space, the system, and the standard expected.

One Point of Coordination

Scheduling, logistics, and installation managed through a single experienced team — from first contact to final walkthrough.

Seamless Execution

We handle the details to avoid delays, rework, or misalignment across trades. The project moves forward, not sideways.

Built for Daily Use

Systems installed for long-term consistency, not just initial function. Your investment performs the same on day one as day one thousand.

START HERE | A Simple Beginning

Tailor your installation services to your space and sauna. From there, we align on timing and next steps, so execution is clear before work begins.

Pricing, Refined by Project

FACTORS THAT INFLUENCE PRICING

- Location – and site access
- Installation conditions
- Product size and quantity
- Electrical and ventilation requirements
- Project timeline

IMPORTANT CONSIDERATIONS

- Limited access or complex installs
- Expedited timelines
- Specialty equipment
- Unforeseen site conditions

ADDITIONAL NOTES

- Customer responsible for offloading upon delivery
- Final quote provided prior to installation
- One-year workmanship warranty included.

Customer is responsible for offloading product upon delivery for Harvia sauna shipments. Thermasol sauna shipments include offloading as part of freight delivery. Final quote provided prior to installation, so there are no surprises. All installations include a one-year workmanship warranty.
